Listen to me - this is a warning  
You have to wake up out of this dream  
Don't be a member of this lifestyle, please  
I hear the beat of your heart

So better watch them - don't be frightened  
Can't you feel it - can't you see it this time  
So many things appear like wonders  
Be shameless my friend - save what you've got

Welcome to this crazy world  
You cannot blame everyone

See the stars and see the rainbows - see it all  
Don't turn away - you're all you've got  
In a faceless world  
You can run - but you can't hide  
It's yourself who waits for you inside

So believe me it's not evil  
To break out of this spell  
Don't be wasting a whole lifetime  
Don't betray yourself anymore

So hear me calling - this is a warning  
When you feel it - don't lose it this time  
One day you will be way stronger  
Be clever old friend, cause then you'll be free

Welcome to this crazy world  
You cannot blame everyone  
Dreams can come true

See the stars and see the rainbows - open your eyes  
Don't turn away - you're all you've got  
In a faceless world  
You can run - but you can't hide  
It's yourself who waits for you inside

So hear me calling  
Don't wanna mistreat anymore

Just one desire  
I want to break this spell

No more wondering  
I wanna be clever this time  
I hear your warning  
I just wanna be myself

Saw the stars and all the rainbows - you've seen it all  
You realized - you're all you've got  
In the faceless world  
You tried to run - but couldn't hide  
It was you who found yourself inside

So hear me calling  
Stop betraying yourself  
Don't waste all your lifetime  
You've been mistreated so many times  
In this faceless world  
You've got to break out of this spell  
Listen to your heartbeat  
Be restless my friend  
Just one desire  
I just wanna be myself
