They say i won't make it to the top of the hill  
Won't take the fruit of a tree  
And ev'rybody says i'm out for the kill

They're all laughing at me  
They're all laughing at me

I'm a rebel - rebel - don't you just know it  
I'm a rebel - rebel  
And they're all laughing at me

They say i'm a danger to the public and all  
I only wish they would see  
I'm just a product of a screwed up world - but they're all

They're all laughing at me  
But they're all laughing at me

I'm a rebel - rebel - don't you just know it  
I'm a rebel - rebel - don't you just know it  
I'm a rebel - rebel  
But they're all laughing at me

Never ever wash my old blue jeans  
And brush the smile off my face  
But still i'm a member of the

Human race - human race - human race - human race

I'm a rebel - rebel - don't you just know it  
I'm a rebel - rebel - don't you just know it  
I'm a rebel - rebel - don't you just know it  
I'm a rebel - rebel  
And they're all laughing at me  
I'm a rebel
