7:47 comin' off the bus,somebody take me home I  
wanna live in must,where trust is low,and stakes are  
high,thats all I ever Denver was die,thats all I ever did  
in New york was die,thats all I ever did in L.A. was  
die.So put 'em up,put 'em up to the sky,I waved bye-bye  
to this american pie,'cause you've been tellin' lies,took  
it all to the fuse did.Somewhere,somehow,somebody  
pulled the plug,and left me sittin' in a dirty little pub.I  
gotta tell ya baby,lifes been good to me,I know that  
makes you mad 'cause that's something you can see.I  
got everything I ever wanted and I'll never give that  
back,well,I know you hate that back,but you ain't gotta  
look at me like that,I said you ain't gotta look at me look  
me like that yeah.What U lookin' at?What U lookin' at?  
What Ulookin' at?What you lookin' at?You want a round  
pullin' stunts like that,see never run my life could I front  
like that,I ain't cut like that,I couldn't run like that like  
that,I'm a keepin' non fiction to take my  
hat,uh!Remember back then when things looked great.I  
spend alot of money and time off win.I remember the  
cruel,remember the good times,I remember the orge  
and remember the sunshines.It's all gone the things of  
the past,fact remains moves real fast.  
So why you sittin' round hopin' things won't change,I'll  
be sittin pretty singin' hey,coffee way!I gotta tell ya  
baby lifes been good to me,I know that makes you mad  
'cause thats something you can see,I got everything I  
ever wanted and I'll never give that back,well I know  
you hate that back,but you ain't gotta look at me like  
that,I said you ain't gotta look me like that,yeah.What U  
lookin' at?What U lookin' at?What U lookin' at?What U  
lookin'at
