

Undersea Poem "Leon Come Home"

Visit "[Leon Come Home](#)" on MotoLyrics.com

When Leon left for out of space
He said he was going to join the human race
He's not afraid anymore
And he's got the cure

Is there anyone home?
Leon, come home
Is there anyone home?
Leon, come home

When Leon left us all behind
He said take a look at your life
Out of space seems like a
Real nice place to be

He had to go away to come back again
He knew that the stars would understand
Hi up above
Is where Leon found his love

Is there anyone home?
Leon, come home
Is there anyone home?
Leon, come home
