Ref.:

Rain, rain, rain,
it's raining cats and dogs every day, every night
I'm drowning in my tears when you're not by my side
sail with me across the sea, tonight

I feel it in mv heart, in my soul, in my brain
the fear of loosing you nearly drives me insane,
just with you, I wanna stay with you my whole life
through
it's raining cats and dogs
Why do you cry ...
why do you cry ...

I can't stand the rain

Ref.

Rap:

Boom, boom goes my heart
every time I see you, right from the start
I got a crush on you, I fell in love with you
I wanna feel you, wanna see you and your point of view

Up, up and away

Come on you can afford a holyday
we gonna make it, gonna shake it and we'll do it right
come on let's take this flight tonight
