Do you dream this dream with me  
I wanna hold you in my arms girl  
'cause I love you from the bottom of my heart  
Can you really understand it never be apart  
I feel it all inside my heart boy  
I am standing in the center of my life  
We play a game that's everlasting  
can't you understand  
Yes it's really true (is it really true)  
I'm in love with you (so in love with you)  
Back to paradise  
wanna see it, see it in your eyes  
Do you dream this dream with me  
I promise you that you'll be free  
Come on and dream this dream with me  
Oh baby can you realize it  
That I need you from the bottom of my heart  
I think we need a touch of madness  
So come on take my hand - yeahhh  
Is this really true (is it really true)  
I'm in love with you (so in love with you)  
Back to paradise  
gotta see it, see it in your eyes  
Do you dream this dream with me  
I promise you that you'll be free  
Come on and dream this dream with me (ooh)  
Do you dream this dream with me  
And you will see you will be free  
Come on and dream this dream with me (ooh)  
Do you dream this dream with me (come on take my  
hand)  
I promise you that you'll be free  
Come on and dream this dream with me (we play a  
game that's everlasting)  
(can't you understand)  
Do you dream this dream with me (come on take my  
hand)  
And you will see you will be free (can't you understand)  
Come on and dream this dream with me
