Selling your soul for a big fat check
Is like selling your ass for a bit of cash
Put your mommy on the silver screen
Make your sista a white trash cunt

Losing your mind on your first date rape
Breaking your teeth in a gang bang set
Your shiny eyes so full of lies
And your silly smile sound like shit

Evil star virus
Makes you \"go and sin\
Evil star virus
Takes you everywhere
Evil star virus
You won't go nowhere

Catching a.i.d.s. from a jetset whore
Greedy brain makes your life a bore
Fucking your dog for a private party
Vices to ashes, lust to dust

Virus to vices, slut to lust
Vices to ashes, lust to dust
