I'm gonna miss you buddy,  
you were the best pal in the world  
I feel real bad  
cuz your going away  
but things will be better in the other world

when you get to heaven  
I bet your legs will work again  
you can run around like years before  
and you'll be surrounded by your friends

They'll never have to pick you up  
out of the mud,  
your hair will grow back  
and you'll have a lot of fun  
Yeah

I think about the good times,  
like when I dressed you up in human clothes,  
peanut butter on the roof of your mouth,  
chase you around the back yard with the hose

You were my constant companion  
but now you don't recognize me  
your eyes are blind and dad says  
we should let you die with dignity

You knew where we were going on that last ride  
when I promised mom & dad I wouldn't cry.

I think it's the right thing to do  
if your in pain  
Canine Euthanasia  
seems more humane

Now sometime has passed  
since you have gone away.  
I got a new pal  
and he's really great  
but I think about you every day

I miss you more than any girl,

you never let me down.  
Where ever you are  
I wish I was there  
I was always happy  
when you were around.

Sooner or later everyone dies  
but I wish I never had to say good-bye  
Goodbye.
