I'm well aware that you are chemically imbalanced -
but I'm the kind of guy that likes a challenge -
from a crazy kind of girl who lives in her own world -
Who is legally insane -
I'm not afraid and I'll rise to the occasion -
and I'll remind you when it's time for medication -
for a mixed up little girl alone in this big world -
Who is legally insane -
You need someone who's there weather you're Lucid or
delusional -
You need someone to hold your hand if your confused
at all -
I understand all the problems you got -
I'll stay up nights on a suicide watch for you -
Fucked up girl. -
I'll be with you until we find a good solution -
and keep you out of any mental institutions -
Cuz you're legally insane -
It takes some patients and a lot of sacrifice -
helping a lunatic get through her life -
I'll protect you from yourself cuz you got nobody else -
And your legally insane -
You need someone who's there when you're losing all
you faculties -
You need someone who understands all your
abnormalities -
I understand all the problems you got -
I'll stay up nights on a suicide watch for you -
Fucked up girl. -
You need someone who's there weather you're -
Lucid of delusional -
You need someone to hold your hand if your confused
at all -
I understand all the problems you got -
I'll stay up nights on a suicide watch for you -
Fucked up girl
