First thing I remember baby, you came floating by  
And now my heart pounds out a brand new beat  
I lost touch with everything I used to be  
Everything before that belongs to someone else's life

You got me cryin' for ya baby  
You got me dyin' for it baby  
Oh Lord, what else can I do?

You know I'm tryin' to get through  
Next thing I know, you dropped out of sight  
Now I see you every time I close my eyes  
Moving so smoothly along the hot concrete  
The way you move could make tonight complete  
You got me dyin' for it baby  
You know I'm tryin' to get through

You got me cryin' for ya baby  
Oh Lord, what else can I do?
