Well something out here stinks like cow  
Bullshit so deep I'm afraid I'll drown  
Daddy favored you as his only true son  
Who'll help you now daddy's gone?

Brother, brother, gonna get your goat  
Gonna grab you by the back of your throat  
I got your girl now I want your goat

Nothing smells sweeter than a goat in the yard  
And a girl out back working real hard

Brother, brother, gonna get your goat  
Tell you the truth 'till it makes you choke  
I got your girl, I want your goat

She don't love you like she loves me  
She don't love you she loves goat cheese  
She never loved you, she always loved me  
Gonna get your goat and that goddamn recipe

Brother, brother, gonna get your goat  
Tell you the truth 'till it makes you choke  
I got your girl now I've come for your goat
