Serj: AAAAAAAAAAAAAAAAAAHHHHHHHHHHHHHhhhhhh!

Hey hey hey hey!
Hey hey hey hey!
Hey hey hey hey!

K'noup: Viktor! (Serj: viktor!) My friend, (Serj: My friend!) look out. There's a million fingers pointing at you.

Together: From the coward in your head, to your stupid ugly friends, did ya (hey hey!) think I'd never hear about you?

Serj: You should be my princess bride.
Together: You should be my princess bride.
I will show you the world and its dunes.
And if you wish to runaway I will find you my damsel gone frazzled.

K'noup: Viktor! My friend (Serj: My friend!) look out!
There's a million other dimwits like you.

Together: From the thousand days at sea to your cherry jubilee, did ya (hey hey!) think I'd never hear about you?

Serj: You should be my princess bride.
Together: You should be my princess bride. I will show you the world and its dunes.
And if you wish to runaway I will find you my damsel gone frazzled...Viktoor!

Serj: Viktooooooorr!

Together: Someday you will hide behind your glass of gaffes.
Enjoy your peace of mind cause I will have the last laugh (Hey!).

K'noup: Viktoor! (Serj: Viktor!) My friend, shut up! (Serj: Shut up!) There's a million dollars counting on you.

From the saddle you were raised to your apricot face,
did ya (hey hey!) think I'd never hear about you?

Serj: You should be my princess bride.
I will show you the world and its dunes.

Together: You should be my princess bride.
I will show you the world and its dunes.
And if you wish to runaway I will find you my damsel
gone frazzled...Viktoooooorrr!

Together: Someday you will hide behind your glass of
gaffes.
Enjoy your peace of mind cause I will have the last
laugh.

Serj: Enjoy your peace of mind cause I will have the last
laugh!

Together: Someday you will hide behind your glass of
gaffes.
Enjoy your peace of mind cause I will have the last
laugh.
Someday you will hide behind your glass of gaffes.
Enjoy your peace of mind cause I will have the last
laugh.

K'noup: HAHA!
