

Mudvayne "A New Game"

Visit "[A New Game](#)" on MotoLyrics.com

Longer, inside me, the doe is rising
To clench us to kill
Lusting, you're nothing but you know me
Stand against your will to satisfy me
Bit by victim, stealth is me

[Incomprehensible]
Sature me
Say all the right things
Just come with me
(Let's go for a ride)

Trust me, don't leave me, don't be so deceiving
God help me, betray me, the blood lust and beating
Just wanna play, just wanna play a new game

The hunter is in me, the doe is searching
Dash for the kill
Abducted, take away, search for the patience
Of one thousand men

Peel my eyes, lock on target
The covert man
(You never had a chance)

Don't be alarmed, want some candy?
Just ride over here
(Now get inside)

Trust me, don't leave me, don't be so deceiving
God help me, betray me, the blood lust and beating
Just wanna play, just wanna play a new

I just wanna play
(Just wanna play)
I just wanna play a game
A new game

You meant everything to me
(You know your time has come)
Another broken dawn today
(You know your time has come)

You meant everything to me
(You know your time has come)
Another broken dawn today
(You know your time has come)
[Incomprehensible]

I just wanna play, I just wanna play a game
One that you've never played before
One that you'll never play again
I'm sure

I just wanna play
(I just wanna play)
I just wanna play a game
(Just want to play a game)

One that you've never played before
(Never before)
One that you'll never play again
I'm sure

I just wanna play
(I just wanna play)
I just wanna play a game
(Just want to play a game)

One that you've never played before
(Never before)
One that you'll never play again
I'm sure

I just wanna play
(I just wanna play)
I just wanna play a game
(Just want to play a game)

One that you've never played before
(Never before)
One that you'll never play again
I'm sure

I just wanna play
(I just wanna play)
I just wanna play a game
(Just want to play a game)

One that you've never played before
(Never before)
One that you'll never play again
I'm sure
