I got my green eye  
I got my glass high  
I got my thunder and it's rolling straight up inside  
She's got the real shit  
Gave me a facelift  
We got this spaceship and we're just a dot in the sky

Into the sun (2x)  
Return as nothing

I got machine guns  
And yes they're lots of fun  
We got some bullets and we're mowin' everybody down  
I got my blue skin  
And eat my dinner in sin  
I got my pride now and I'm all shook up inside

Into the sun (4x)  
Return as nothing

My mother said that all were angels  
But I swear I saw the evil  
Evil that bleeds from the sky, from the sky...

So I can't help you now  
You saved it for yourself  
But you stole everything  
So you can see it when you  
Wake up  
You know  
There is  
No one to worship  
So... fuck you, fuck her, fuck him, fuck...

"They'll kill everyone, we've got to stop them!"

... Off into the sun  
Return as nothing

"We will spread to every continent and devour every  
living thing  
On earth."

Into the sun  
Return as nothing
