We swallowing your spit
Steal acceptance, lend denial
Tellin' me that my life is free and boundless
But then I'm forced to stay between the lines
They construct death to demolish life
We plant the seeds to harvest loss
But empty truth is full of lies
Lies, lies, lies

We're hopin' for despair
Starvations gluttony
With a subtle chaotic peace
War divided unity
Pro life, pro choice
Blinded insight
Left wing, right wing
Black, white leaders following

I am everything
I am nothing
I am everything
I am nothing
I am everything
I am nothing
I am everything
I am nothing
I am everything
(I am nothing)
I am everything
(I am nothing)

Stop fuckin' with me
(A human not a machine)
I'm the answer I'm not the enemy
(A human not a machine)
You're so confused
No way you could enlighten me
(A human not a machine)
No freedom trapped in slavery
Deceitful honesty mother fucking human not a machine

Stop fuckin' with me

I'm the answer I'm not the enemy
(A human not a machine)
You're so confused
No way you could enlighten me
(A human not a machine)
No freedom trapped in slavery
(A human not a machine)
Deceitful honesty mother fucking human not a machine

It's all right to be afraid
But sometimes that's what it takes for us to
change
No power before the blacks and grays to shade our
fate
They shape our lives in constrictive space
And hope prays we'll count the days
Then we play our life like it's some kind of
fucking game
Point your finger at them and we'll be the
ones to assert the blame
So sorry you'll be the one to absorb the tears,
your fears
The loss is stacked up like you carried bricks for years
Once again you put your life on the line against the fate
of time
Praying for the end of time
Praying for the end of time
Praying for the end of time

I am everything
I am nothing
I am everything
I am nothing
I am everything
I am nothing
I am everything
I am nothing
I am everything
(I am nothing)
I am everything
(I am nothing)

Stop fuckin' with me
(A human not a machine)
I'm the answer I'm not the enemy
(A human not a machine)
You're so confused
No way you could enlighten me
(A human not a machine)
No freedom trapped in slavery
(A human not a machine)

Deceitful honesty mother fucking human not a machine

Stop fuckin' with me

(A human not a machine)

I'm the answer I'm not the enemy

(A human not a machine)

You're so confused

No way you could enlighten me

(A human not a machine)

No freedom trapped in slavery

(A human not a machine)

Deceitful honesty mother fucking human not a machine
