"Fear"

Visit "[Fear](#)" on MotoLyrics.com

Fear is an emotion inside us
Deeper growing my deaths content
Eating away our insides
Watching themselves and they step out of skin
So darkness it surrounds the being
Memories ressurected of pain
Remembered, what?
Were reminded, why?
Of a the fear thats inside us and we'll give in today

Fear
Fuck you
Fear
It's inside you

Why am I here?
Because you invited me
I cant help for your insecurity
You cant hide from me 'cause I'm inside of you
I took it from you because your a freak show

I mend my soul without reason
Patiently conscience restrained
My life feels so nice
It seems my darkness disguised entity
Shrouded in lifetimes of misery
Turned and it swells in my fate
Repeated, what?
Disregarded when?
Of the visions in my mind reflected mistake

Fear
Fuck you
Fear
It's inside you

Why am I here?
Because you invited me
I cant help for your insecurity
You cant hide it from me 'cause I'm inside of you
I took it from you because your a freak show

Why?

Hostile manner that's my fear

Sets back in my body goodnight
Relayed needles
Now floating feeling with soul striped from mine
Wrapping dead bodies ascending
Vision restored to my eyes
Confidence, what?
Through defiance, why?
I've just now lifted from dead soiled time

Fear
Fuck you
Fear
I'm inside you
My hand upon you
Your life gets a clue, I'm finished

Fear its violent
(Why am I here?)
Sleeping inside me
(Because you invited me)
Cry out I just can't see the sickness inside me
(I can't help for your insecurity)
Sickness full of weakness in motion
(You can't hide it from me 'cause I'm inside of you)
Please let me free now, get out of me
(I took it from you because you're a freak show)
Fear its violent
(Why am I here?)
Sleeping inside me
(Because you invited me)
Cry out I just can't see the sickness inside me
(I can't help for your insecurity)
Sickness full of weakness in motion
(You can't hide it from me 'cause I'm inside of you)
Please let me free now, get out of me, me, me, me
(I took it from you because you're a freak show)
Fear
Fear
Fear
Fear
