Frozen moments in time, stopped hourglass They predicate, what you will know? Dispositions lie within

And so do we, don't want to run, don't want to run Renounce the prayers for inspiration If you take, what I will be Then smash my face upon the concrete, I'm weary

I feel your stares piercing
So sorry to soil your precious eyes
Reflections spoon feed you
The bitterness and disgust that is me
If you choose to reach out to lend to me
I'll chew off your hand

I'm not beggin' for your fuckin' change I'm not beggin' for your fuckin' change I'm in touch with myself All alone with myself All one, all alone All one, all alone

Do what you will make it the whole of your law Burn down the faith that shadows life And take a deeper look inside of what makes you Pull down the shades Internal light can be blinding, brilliance

I'm not begging for your fuckin' change I'm just begging for a fuckin' change Complacence quenched of me Lineage is ending

I am that, once was me
Rising upward, guts wrenching
Sculpted cold, blistering
Break the mould, sever me
Cut your throat, be the martyr
Bitter pills that we swallow
Take me, chase me
Swallow with me

Know, now, know, now Inside of truth, coming to close to me Ground consumes and embraces me, me, me, me

Born again, I'm repositioning Self inside to self non-dimensional Lost to being, I've recognized the cause Existence to come, alive now forever

Born again, I'm repositioning Self inside to self non-dimensional Lost to being, I've recognized the cause Existence to come, alive now forever

I am once was, I am once was I am once was, that is me I am once was, I am once was I am once was, that is me

I'm broken altered vacillating force Round square corners circles Dance around wet figures Prisoner of time, I'm no more insight Will guide us through the majesty of nothing

It's like, I'm touched with love by Angel girl Let bastards rot in time for all their evil Let bastards rot in time for all their evil Let bastards rot in time

No one's begging for your fuckin' change I'm not begging for your fuckin' change I'm right for my own ways Take me to my own space, forever, forever
