

Mudvayne "Version of a Truth"

Visit "[Version of a Truth](#)" on MotoLyrics.com

When everything is lost
Haunting us with questions
Will we ever find the smiling inside
Is it hidden behind the sweating eyes

Dead inside a scream
That's pouring from me
I'm planted in this skin, this dirty filthy skin
The bird behind the walls, the bearer of a gift fuck your
gift

Truth does not exist
But the lies do
Truth does not exist
But the lies do

They're buried in the skin evolved
Perversion of a truth, I'll start there
Inside of life bearing in me why?
Born into a world, never asked to be here

Doesn't exist
It doesn't exist
Truth
Doesn't exist
It doesn't exist
Truth

Always inside a tragedy
The room that I remember
Try and let me go up to space
The fool that fell from heaven

Perversion of a truth, I'll start there
Inside of life bearing in me why?
Born into a world, never asked to be here

Doesn't exist
It doesn't exist
Truth
Doesn't exist
It doesn't exist

Truth

Doesn't exist
It doesn't exist
Truth
Doesn't exist
It doesn't exist
Truth

Doesn't exist
It doesn't exist
Truth
Doesn't exist
It doesn't exist
Truth

Maybe we're all children of the stars
Misguided in direction, a misdirection
Pardon me while I pray for light

I'm not the only one
That walks between the rain, there are many
I'm not the only one
When everything is lost that doesn't surrender

Perversion of a truth, I'll start there
Inside of life, bearing in me why?
I walked into a world never asking me, yeah

Versions of the truth
I'm not the only one
Your versions of the truth
I'm not the only one
Your versions of the truth
I'm not the only one
Your versions of the truth
I'm not the only one

Lies, lies
Lies, lies
Lies, lies
Lies, lies
Lies, lies
Lies
