Knife in the throat, knife in the head  
Knife in the back and knife in the chest  
Blood flow, heart burn

Chorus - Kill everyone

Out with their eyes, lips cracking  
Bone breaks, face crushed  
Teeth loosened, flesh burn

Chorus - Kill everyone

Neck shall be broken, throat strangled

Intestines flow, you will be skinned  
Ears bit apart, hair teared off

Chorus - Kill everyone

Put them on stakes, let their beloved watch  
Rape them, eat them, let their beloved taste  
Burn them, cut of their heads, their beloved also

Chorus - Kill everyone
