(Berger/Sarkka)

Knife in the throat, knife in the head
Knife in the back and knife in the chest
Blood flow, heart burn

Kill everyone

Out with their eyes, lips cracking
Bone breaks, face crushed
Teeth loosened, flesh burn

Kill everyone

Neck shall be broken, throat strangled

Intestines flow, you will be skinned
Ears bit apart, hair teared off

Kill everyone

Put them on stakes, let their beloved watch
Rape them, eat them, let their beloved taste
Burn them, cut of their heads, their beloved also

Kill everyone
