Fight for the black shark  
See what evil brings  
Can't you see we're out for blood  
Love from a shotgun  
License to kill  
Can't you see we're out for blood

The kids scream in fight, through the night  
Loving energy bite with delight  
And we blow out our minds with your truth  
And together we stand for the youth

Red Hot, Red Hot  
To the top, we are  
Red Hot

Shout at the Devil

We've laughed at your wars  
Can't you see we're out for blood  
Run with the pack, now  
Always ask for more  
Can't you see we're out for blood

The kids scream in fight, through the night  
Loving energy bite with delight  
And we blow out our minds with your truth  
And together we stand for the youth

Red Hot, Red Hot  
To the top, we are  
Red Hot
