(m: boa/ ball; t: boa)

Death don't dance with me  
No! Look me straight into my eyes  
Hit and shoot me right into my heart  
Don't play chess - I'm bad in it  
Kill the king straight by your heart  
Don't play a-round in tactical-circles  
Hate me warm and clean fair  
Death don't dance with me

You love me once  
I'd love you twice  
Death: (fair enough friend, but die on!)  
What attracts you is my faible for you  
What attracts me is your endless power  
And I love your charming ugliness  
You have the right to kill me  
I have the right for ignoration  
Death don't dance with me
