Here we come
And this is not a song written by Anthony Burgess!
We are yupscumhater- violent- gang- stars
We invent our sins!
Hate hip climbers - shoot them like birds!
Freefallers and skydivers, fall and feel hard, fry in the
sun!
After- ski- burners/ bastards
I spoil you with granide
Feed you with cyanide

All you sporty jumpers- bung- rope- cokey- snorters
Better beware - I bleach your wrap!
We slash your tyres, jeepuppy drivers
Snow- borders- we call the avalanche
Jetty- skiers come hit the rocks
(what is bad?)
hey! Killer patrol!
In our hatemobiles
With killer- petrol
In our hatemobiles!
