(m: ball; t: boa)

Ice-camp 2000
Â½-civilized madcops
Teach the world to sink
Smash their pc-neck-extension
With robot-virus-anastasia
And rollercoaster militia
Against our hearts and clearclean souls
Humachinery rules
While we drown our hate
In pools of lethargic foolish water
Hey! Kids you metallized brainers
Think-containers

Let's hang our anger-flag high!
Defend ourselves against
A nouveau-bunker-mythology!
We serve the robots of a devil
Who build desastrous working ghettos
With machines from hell
Get down and up and fight
The only way is back - now fly!
Every decision is a cut of a right
Time to win a non-beloved fight
Hey! Hang it high!
