You watching me, watching you  
You're another ugly face, it's true  
Another time and another old place  
I'll break your teeth and smash your face

Another joy, you pass along if you will leave and carry  
on

I want to know what you want  
Right by my side you pass a lot  
And if you say that I'm not real aware  
Just look into my eyes I'm there

Another joy, you pass along if you will leave and carry  
on

Do you think you have a life now?  
Do you think about me day and day and night and

Another joy, you pass along if you will leave  
Another joy, you pass along if you will leave  
And carry on and carry on and carry on and carry on
