Sitting back and doing nothing
I could hate you
I don't think I will

If you ever see me anywhere
And you know me
Please walk away

Funny face
Why do you look after me?
Funny face
Why do you care?

Doing everything I wanna do
Maybe someday
You will be there

I thought we would always get along
I like everyone
They all hate me

Funny face
What's wrong with you anyway?
Funny face
Why do I care?

You want everything from me
But you won't get it
I did everything I could
But now, I'll just forget it

Funny face
What's wrong with you anyway?
Funny face
Why do I care?
