You and your parrot  
Walk around like you're demigods  
You and your parrot  
When you're together I'm all alone  
I am all alone  
(Yeah)

Forget about it  
You get together and laugh at me  
Forget about it  
Gossiping on the telephone  
I am all alone

Will anybody take a chance for me today?  
We'll throw them in a well and  
Laugh and watch them float away

Will anybody take a chance for me today?  
We'll throw them in the ocean  
Laugh and watch them float away

You and your parrot  
Walk around like you're demigods  
You and your parrot  
When you're together I'm all alone  
I am all alone  
(Yeah)

Now I'm gonna be all alone  
Now I'm gonna be all alone  
I am all alone
