"Circle Of Time"

Screams of anguish
Fills the air
A civilization flushed down the drain
Cry out in despair

What have we created
An eternal tomb
We choke on our greed as we realize
Hell is where we were born

Circle of time
The circle of time is about to close
Ashes to ashes

Dust to dust

The time has come
To pay the price
The day of judgement
Has arrived

The circle of time is about to close
The countdown can not be stopped
A path for our fate is so fuckin' clear
Extermination the price for our greed
There's no return.
