It's a date with death
Life on the edge
Enjoy the trip
You may never wake up again

Feel the worms
Crawling beneath your skin
Endure the pain
A trip to hell & back again

It's the devils night out
Embrace your fear
Take one last trip
Before you perish in flames

It's the demons night out
The spirits are free

Take one last trip
Before you meet your destiny

The devil is high

Feel the rush
Pulsating in your veins
The horror and joy
Is teasing your mind

It's the devils night out
Seek and destroy
The devil is high

It's the demons night out
The spirits are free
The devil is high.
