I can hear you screaming
Desperately in your sleep
The scenes attached to your memory
Can never be erased

I've never known such horror
I've never known such fear
I've never seen such brutal sights
Of endless agony

Scenes of death

Scenes of horror
Haunting you in your sleep

But in my deepest dreams
I can see through your eyes
I can see all your memories
And the pain you carry inside

Forever lasting pain
The memories will never allow you to forget.
