You came on strong like a diesel tracker  
let it be known it was me  
you were after  
all you ever wanted was a peice of my heart  
boy you had my number right  
from the start

Chorus:

You were a hot wire, on fire  
ready to go  
Heatin me up from, head to toe  
Had me worked up, talkin love  
now you wanna take it back  
What's up with that?

In the middle of the song you changed  
your tune  
You were in too deep  
and way too soon  
You said you really hope that I would understand  
You'd even give me first shot at a second chance

Chorus:

You were a hot wire, on fire ready to go  
Heatin me up from head to toe  
Had me worked up, talkin love now you  
wanna take it back  
What's up with that?

Is it yes, or is it no?  
Will you stay, or will you go  
Are we off, or are we on?  
I hold you close and baby then you're gone

Chorus:

You were a hot wire, on fire ready to go  
Heatin me up from head to toe  
Had me worked up, talkin love  
now you wanna take it back  
What's up with that?

What's up with that?

Hunny, what's up with that?

What's up with that?
