Never Go Down  
(VVSmith)

All my days I been lookin' forward to find a way  
To keep my head above the dark water and face the  
day  
To find my way when the sun be goin' down  
I follow my heart and I run when I hit the ground

I heard my Mama say: You gotta make your way (if  
you're) gonna win  
I heard my Mama say:

Never, never go down  
Always keep your eye to the sky  
And you'll never go down  
shoot it high and you're gonna learn to fly, Babe

Pitch black nights, not a single star in the sky  
I'm on my way, never do and never die  
I reach my hand into the mouth of the hungry dog  
I'm livin' out my days I ain't afraid of nothin'  
goin' wrong
