Thunderbolt
(VVSmith)

There it was; it flashed across the room
I was blinded, now I see
A bright light splashed on a little bit of honey and the
honey stuck to me, don't you see

Bridge
She's a heart breakin' little thunderbolt - slappin
down on me

Chorus
Oh I feel the electricity
I feel the lightning - I'm hit by lightning again
Oh... and my heart's a beatin' faster

Last time I saw that hot little lady she was a burning
away from me
She rode my life like a broken little bronco then she
took my heart from me, don't you see
(Br)(Ch)(Solo)

I seen my life flashin' right before my eyes when I
heard her call to me
My knees gave out and my belly turned to jelly, this just
can't be happenin' to me, don't you see
(Br)(Ch)(Solo)(Br)(Ch)

Break down
There she was she walked into the room
and it's much too much for me
She's holdin on the paddles of the Defibrillation
And it's coursing through my body you see

High voltage woman come a flashing my way
And she's comin after me

I feel the lightning... I feel it runnin through me veins
