"Spit Right Back"

Visit "[Spit Right Back](#)" on MotoLyrics.com

i know your efforts feel like a fountain sometimes
never adding up
never filling up
going around in vein
but everyone you know is
tossing a coin in
and making a wish for you now

so get on top of it, get on top of it
and stay on top of it, stay on top of it
and dont fall off of it this time

(chorus)
and if it rains
well if it rains i want you to spit right back at the sky
dont hold nothing back
cause i've got your back
and if i fail
well if you fail
i want you to try and try till you die
cause your luck will change
you will have your day

(bridge)

you're having trouble
finding a clear path through
all the bullshit, all the bullshit
and the dreams it seems you cant get to
it seems you cant go around if you try to go through it
well
try again friend
said try again, said try again

and if it rains
(chorus x2)
