You know I still love you baby, And it will never change.
(Saranghae)

I want nobody,nobody but you.

I want nobody,nobody but you.

How can I be with another,

I don't want any other

I want nobody

Nobody

Nobody

Nobody

Why are you trying to, to make you leave ya

I know what your thinking.Baby why aren't you listening.

How can I just, just love someone else and

Forget you completely,when I know you still love me.

Telling me your not good enough.

My life with you is just too tough.

You know its not right so, just stop and come back boy

How can this be when we were meant to be

CHORUS:

I want nobody,nobody but you.

I want nobody,nobody but you.

How can I be with another,

I don't want any other

I want nobody

Nobody

Nobody

Nobody

I want nobody,nobody but you.

I want nobody,nobody but you.

How can I be with another,

I don't want any other

Why can't we just, just be like this cause

Its you that I need and nothing else until to the end

Who else can I ever make me feel the way I
I feel when I'm with you ,no one else will ever do

Telling me your not good enough.
My life with you is just too tough.
You know its not right so, just stop and come back boy
How can this be when we were meant to be

(Repeat chorus) 2x

I don't want nobody, body (2x)
Honey you know its you that I want,
Its you that I need, why can't you see

(Repeat chorus) 2x

Back to the days when we were so young and wild and
free.
Nothing else matter other than you and me,
So tell me why can't it be,please let me live my life my
way, why do you push me away

I don't want
nobody
nobody
nobody
nobody but you!
