Diamond eyes that burn me
And turn me to stone
Crystallize and freeze me
In clear monochrome

Turn me to stone
Do anything you want with me
Turn me to stone
Do anything you want

Stereotomy
We can make it together
Do anything you want with me
Do anything you want

Scarlet minds possess me
And I feel no shame
Silent knives dissect me
And I feel no pain

Stereotomy
We can make it together
Do anything you want with me
Do anything you want

Stereotomy
We can make it forever
Do anything you want with me
Do anything you want

Starlight beams project me
In red, blue and green
Velvet dreams protect me
When I hit the screen

Stereotomy
We can make it together
Do anything you want with me
Do anything you want

Stereotomy
We can make it forever

It's always the same
It's always the same

Stereotomy
We can make it
We can make it
Do anything you want

Turn me to stone
Do anything you want with me
Cover my eyes
There's nothing more they need to see

Turn me to stone
Before there's nothing left of me
Make me a rock
And not what I appear to be

Turn me to stone
Turn me to stone
