Tell me what to do, now the light in my life is gone from
me

Is it always the same, is the night never ending
Tell me what to do all the hopes and the dreams went
wrong for me

There's a smile on my face but I'm only pretending

Taking my life one day at a time
'Cause I can't think what else to do
Taking some time to make up my mind
When there's no one to ask but you

The same old sun would shine in the morning
The same bright eyes would welcome me home
And the moon would rise way over my head
And get through the night alone

And the same old sun would shine in the morning
The same bright stars would welcome me home
And the clouds would rise way over my head
I'll get through the night on my own

Tell me what to do now there's nobody watching over
me

If I seem to be calm well, it's all an illusion
Tell me what to do when the fear of the night comes
over me

There's a smile on my face just to hide the confusion

Taking my life one day at a time
'Cause I can't think what else to do
Taking some time to make up my mind
When there's no one to ask but you

The same old sun would shine in the morning
And the same bright eyes would welcome me home
And the moon would rise way over my head
I'll get through the night alone

And the same old sun would shine in the morning
The same bright stars would welcome me home
And the clouds would rise way over my head

I'll get through my life on my own, on my own
On my own, on my own
