naked girl don't let the world degrade you  
the years ahead are strung like pearls  
ragged boy when will your young life settle  
you're the brightest point for a thousand miles  
lie down, prepare your wedding  
life's hard, forget about the bitterness of life  
spent my time praying for golden saviors  
when times were hard the good things came  
goodbye world, god knows he never loved me  
the years ahead hang so heavy now  
lie down, prepare your wedding  
life's hard, forget the bitterness  
lie down, prepare your wedding  
life's hard, forget the bitterness of life
