One cold night Â– KevinÂ’s walking down the streets to  
get it right

As he walked on by

One cold look Â– and for one moment I could see  
behind his eyes

As he walked on by

There is no hope, thereÂ’s no fear

There is something that will only make it clear

KevinÂ’s got a gun Â– heÂ’s comes around Â– believe  
it

KevinÂ’s got a gun - he comes undone

And if you see him coming one on one

Reveal it, reveal it, reveal it...

One wrong word Â– and KevinÂ’s dreams (were)  
smashed into a thousand

Pieces then Â– cut him to the ground

No more talk Â– heÂ’s fed up with all twisted talking  
finally

Then we hear the sound

There is no hope, thereÂ’s no fear

There is something that will only make it clear

KevinÂ’s got a gun Â– he comes around Â– believe it

KevinÂ’s got a gun - he comes undone

And if you see him coming one on one

Reveal it, reveal it, reveal it...

There is no hope, thereÂ’s no fear

There is something that will only make it clear

KevinÂ’s got a gun Â– he comes around Â– believe it

KevinÂ’s got a gun - he comes undone

And if you see him coming one on one

Reveal it, reveal it, reveal it...
