Say Yes to the people who would never know
Say Yes to the people who would never show
Say Yes to the people who would like to burn
Say Yes to the people who would never learn

WeÂ´re on the road to nowhere
WeÂ´re gonna make it somewhere
WeÂ´re into outta spaces
WeÂ´re gonna leave no traces

There is no reason to be lonely
There is a whole world to be won
Get up and find yourself your own way
I could only lead you to the sun

Say Yes to the party people over there
Say Yes to the girl/ wanna have an affair?
Say Yes to the boobies/ wanna have a drink?
Say Yes to the ass that would make you swing

WeÂ´re gonna make it happen
WeÂ´re gonna take the heaven
WeÂ´re gonna use the one key
We will pass through the entry

There is no reason to be lonely
There is a whole world to be won
Get up and find yourself your own way
I could only lead you to the sun
