If I had a love in my life - it would actually be...
You wanna know right now
If I had a wish to fulfill - would you accompany me?
Or would you know somehow?

Just say something, just one word, these little things I
never heard

I walk alone all hope is gone or will you rescue me?
My soul is suffering to the bone or will you rescue me?
This is the last call nÂ´ yourÂ´re not home

If I had some scars on my heart Â– it would actually
be...
You wanna know right now
If I had a teardrop to start Â– would you like what you
see?
Or would you know somehow?

Just say something, just one word, these little things I
never heard

I walk alone all hope is gone or will you rescue me?
My soul is suffering to the bone or will you rescue me?
This is the last call nÂ´ yourÂ´re not home, youÂ´re not
home
I walk alone all hope is gone or will you rescue me?
My soul is suffering to the bone or will you rescue me?
This is the last call nÂ´ yourÂ´re not home, youÂ´re not
home

If I had a love in my life it would actually be....
