You smile at me I take a breath while you say that you  
're leaving

No words to say no hand that may touch what I need  
feelin'

Then you're gone, then you're gone

I think of you when evening ends the night awaits my  
fallin'

How something's wrong that I depend (on) no one  
hears me callin'

Now you're gone, simply gone

Gonna creep around your door but you don't hear me  
So I'm coming back for more but you're not here to  
see me

Like a shadow in the rain that I am crying

Life will never be the same without you dying

I - never felt that feeling

I - never stop that dreamin'

Where are you now while I'm fallin' ?

Speak to me now hear my callin'

These killing words

These killing words

Mark the end?

Gonna hide me from the lights until it's over

With my arms all open wide, but there's no need for  
cover

Like a picture fades away, my heart is silent

Now that you're not here to stay, my blood boils  
violent

I - never felt that feeling

I - never stop that dreamin'

Where are you now while I'm fallin' ?

Speak to me now hear my callin'

These killing words

These killing words

Mark the end?
