Music From The OC Mix 2 Soundtrack Lyrics

The Walkmen - Little House of Savages

Somebody's waiting for me at home
Somebody's waiting for me at home
I should have known
I should have known

Somebody's got a car outside
Somebody's got a car outside
Let's take a ride
Let's take a ride

Somebody's waiting for me at home
Somebody's waiting for me at home
I should have known
I should have known

And somebody's got a car outside
Somebody's got a car outside
Let's take a ride

They know that it's late but I don't wanna go
Somebody's waiting for me at home
I should have known
I should have known

Cause you can't run and have your fun
But don't come around when she is home away
Better go around her

As the door in the heart that is open tonight
Come on like I got you tonight
I should have known
I should have known
Cause you can't run and have your fun
But don't come around when she is home
