James Dean is overrated  
It's not too complicated  
His image is inflated  
And ya know I really hate it  
They all called him a rebel  
It's such a stupid label  
If I went back in time machine  
I'd kill him if I was able  
James Dean is an overrated asshole  
There's a bunch of silly girls  
With his posters on their walls  
If I ever met that guy  
I'd kick him in the balls  
He made his last movie with a man named Rock  
I think we know about that guy and where he put his  
socks  
James Dean is an overrated asshole  
James Dean is an overrated asshole  
James Dean is an overrated asshole  
James Dean is an overrated asshole
