

When All Else Fails "Autumn Leaves"

Autumn leaves, they fall to the ground.
Just like my heart when you left me standing here.
Slowly the seasons, they change.
Then comes the fall that brings the cold,
brings the leaves crashing to the ground...
crashing down. The way that you cradled my heart in
your hands,
then you said forget it and let it fall to the ground. I'm
running, come catch me now. 2x I'm running away from
the pain that's inside, and maybe I'll find you along the
way. One last time.... 2x Say you love me... Don't be
afraid.... I need you, I'm falling down. 2x Just like the
autumn leaves to the ground. Come catch me, Come
catch me now. 2x
