

When All Else Fails "The Last Time"

Visit "[The Last Time](#)" on MotoLyrics.com

This will be the last time

I ignore the very obvious

Were heading in the wrong direction

And its time, to make a choice

Are we moving on?

Weve been together for so long
This will be the last time

I reveal my thoughts to you

Some things are better left unsaid
Cause I am ignoring all the warnings I see

driving even faster as the red lights turn to green

leaving it all in the past
Do you know?

What its like to be alone?

Now I realize,

Now that youre gone.

(Repeat 3x)
