Forbidden is the first earth
For I remember the denied genocide
Of gods sheep and Satan's horny sons
Throats cut, now smile
With the mark of paradise
Â...Millenium
Welcome to my heart
Now enter
Your gloomy romance
Scapegoats of the first genocide
No god controls our system
Gathering of diverse cults
Distracted and lost
Searching for existense
Forbidden is the first earth
For I remember the denied genocide
Of gods sheep and Satan's horny sons
Throats cut, now smile
With the mark of paradise
Â...Millenium
In the blue ozone where fallenangels dance
Like a desire multiplies from three rotting genitals
Desperate tries to infect venera
disease to an unborn red lead
A secondary fuck gone wrong

A birth of new child
Given in marriage to mechanical genital
Another narcotic nylon angel sells herself
To an alien Jesus
God would've taken her, out desire,
they fuck on it's grave
Another unborn god now dance
A bottle of LPG wired to a swan
A mark of freedom come, fly, missile
Here fallenangels won't regret or cry
They set fire to and new level in desire
Beyond that millenium of sorrow
Disappearing into blood dive
Tormentors come
Erase pretty profound liars
Virtues and liars

Forbidden is the first earth
For I remember the denied genocide
Of god's sheep and Satan's horny sons
Throats cut, now smile
...With the mark of paradise
Millenium ...of sin
