

Withered Garden "Redeemer"

At night stars of eternity show me the way
And I bow to dreams of dusk and eternal fire
I will travel through eternal sky
To my kingdom, where dead dance
And silence moves, plays my symphony
My melancholy

Taste of blood in steel
My way to silence, step to death
And blood I will give
To my master eternal sleep

No eden I shall to go
No to promised paradise
Only darkness and dusk

The path of freedom
My way to make my world
To make end of this suffering

Redeemer....death

Black silky hood is settling
Around me, it takes me
To the another world
To the underworld

Ashes to ashes
Dust to dust

Now the ghouls of darkness
Take my soul
And gates of cemetery
Will be closed to me
Forever....FOREVER
