I remember how we picked our food from,
The bushes and the ground and the trees,
I remember how we drank the water,
From the rivers and the wells and the streams,

Chorus:

Just like me, You've gotta be free, You've gotta be free,

We've lived through so much pain and trouble,
But Jesus said he'd save us all,
I remember all the words He's spoken,
I believe that I can hear Him call,

Repeat Chorus:

If you look across a snowcapped mountain,
And see the sun appear from behind,
If you look into a dark cloud floating,
Through a stormy dim and grey coloured sky,

Repeat Chorus:

We've lived through so much pain and trouble,
But Jesus said he'd save us all,
I remember all the words He's spoken,
I believe that I can hear Him call,

Repeat Chorus:
