I said I loved you many times before
Baby I'm telling you just once more
I'm crazy about you
Just can't live without you, little girl.

I'll plant my kisses on your cheek
I'm going to hug you 'til I just can't speak
I'm crazy about you
Just can't live without you, little girl.

I don't care what the people say,
I'm going to marry you one fine day
We'll be happy, wait and see
You're gonna say that you'll marry me.

You know I love you from the bottom of my heart
There's nothing ever gonna tear us apart,
I'm crazy about you
Just can't live without you, little girl.
